GIVE ME A CALL.

J. GIST.

LOTS FOR SALE AT
THE HOT SPRINGS
OF NEW MEXICO.

The completion of the Atchison Topeka & Santa Fe Railroad to Las Vegas and the Hot Springs and the fact that they, the greatest corporation of the age, have recently become the owners of these Springs, their policy being to spare no money to make the ground attractive, and to furnish a fine Hotel and Bath accommodations to meet the demands of their patrons. By their grand system of leveling, and the general spirit that they have always shown toward the traveling public, makes it an exceedingly fair field that the Hot Springs of New Mexico is destined to be.

The grounds at the Springs has been laid out in lots and works to suit the wants of the home, pleasure, and health seekers, the capitalist, and all who want a desirable place to live where health and good society can be obtained. These lots both for business and residences are now offered for sale at a very reasonable price.

These lots both for business and residences are now offered for sale at a very reasonable price.

Remarkable Springs

although until within a few years comparatively unknown to the outside world, have a local reputation which antedates the present century; and from time immemorial have been resorted to as the "Great Steam" by the natives of this Territory. The mineral constituents of these waters closely resemble those of the Hot Springs of Arkansas, and those famous Thermal Springs of Europe. The Pfeifers in the valley of the Rhine, and the Plombarieres, the popular resort of France, situated in the valley of the Vosges Mountains, and the Leux in the picturesque valley at the foot of the pass over the Gemini Mountains. At these springs thousands of invalids visit annually, and are

recovered.

Cured of the Diseases of the Blood

Skin, stomach, paralysis, gout, rheumatism, gravel, catarrh, and female complaints by bathing and drinking the water. People visiting the Hot Springs of New Mexico have been cured of all of the above diseases, and even more. It is the invalids paradise. The great Sanatorium of the world for lung diseases. The atmosphere is clear and dry, and pulmonary and miasmatic complaints are scarcely known.

The proportion of deaths from consumption here being smaller than in any state or territory in the Union. The mean annual temperature at these Hot Springs is 50 deg. Fahr., being at an elevation of nearly 6,400 feet. Summers are cool; nights from 55 to 60 deg. and the winters are remarkably mild and dry, the temperature seldom falling below the freezing point. This is the dry season—in July and August. These Springs are located in about 35 degrees of north latitude, which makes the climate mild and temperature unmarked by extremes either of heat or cold. The bracing air, its mountains, the gorgeous picturesqueness of its canons and valleys combine to make it one of the most pleasant resorts for tourists. Only 36 hours ride from St. Louis. After leaving the city of Denver, until reaching the Springs the traveler sees spread before a vast panorama of mountain, valley, and rocky canon stretching hundreds of miles. No better place can be found for the stock-grower to live and raise his family than at the Springs.

With all of the above advantages the dullest of comprehension cannot fail to see the advantage of an early investment in property in and about the Springs, as there are but a few hundred lots for sale, and they will soon largely enhance in value from the prices now asked.

A Word to the wise is Sufficient.

Write or call at our office in the Baca building in Las Vegas, or at the Springs.

MILLS BEECHER & CO.
